School support: people return

Replacement support for the reading block

I'm Bradley. I'm 16 and I live with my parents in New York. When my older brother and sister grew up, they left home. Our house felt empty.

Two years ago, my sister Lucy came back with her husband Roy and their children. Roy lost his job and they did not have much money.

Last year, my brother Jimmy and his wife Emily Rose moved in. They wanted to start a graphic design studio and needed to save money.

Why did Lucy and Jimmy return home?

School support: four generations

Replacement support for the reading block

Earlier this year, Grandpa died. Grandma was 89 and lived alone. Dad wanted her to move in, but she was very independent. Eventually, she agreed and brought her cat, Charlie.

Now four generations live under one roof. Everyone helps. They eat most meals together, and Bradley enjoys playing with his nieces and chatting with Grandma.

Does Bradley like the new situation? Find two clues.
